Hello!

You can create your own postcards by deleting the picture on the front and inserting your own digital pictures or scanned images, and printing on sturdy paper.

To add your own image

- 1) Click the placeholder image, and then press the Delete key.
- 2) On the **Insert** menu, point to **Picture**, and then click **on From File**.
- 3) Select the picture you want to insert, and click **Insert**.

You can resize the image by clicking on it, and dragging the corners. You can also add your own text by editing the text boxes, or adding more by clicking on **Text Box** on the **Insert** menu.

When you are done using these instructions, delete them and add a message of your own.
